- Size M, L, XL

GLOVE6LB **\$22.95**

Chris Rodriguez was in need of something that could stabilize a battery quickly. Chris' Snap-on® Representative, Scott, had a Battery Charger Plus™ on his truck and knew it was just the thing.

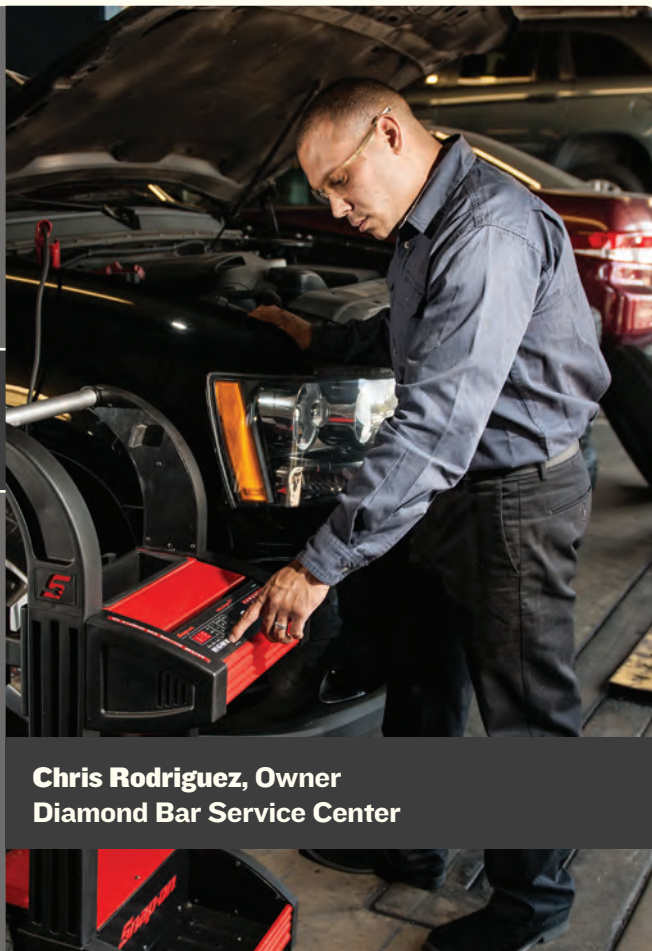

"I didn't even look at other competitors," says Chris. "For me, it's Snap-on® all the time. Having the Battery Charger Plus helps me save time and make money faster. In fact, the guys in our shop are amazed at how quickly it charges dead batteries."

"Every shop needs the Battery Charger Plus."

"It's efficient, durable, and cuts down on diagnosis time," he adds. "Plus there are other things you can do with it, like trickle charging AGM batteries."

If you'd like to experience the same results in your own shop, ask your Representative about the Battery Charger Plus. As Chris concludes: "There are other charger tools out there, but you get what you pay for. With the right tool, (the Battery Charger Plus), you'll save time and make more profit."

We couldn't have summed it up better ourselves.

Chris Rodriguez, Owner
Diamond Bar Service Center

BATTERIES HAVE CHANGED. HAS YOUR CHARGER?

Battery Charger Plus

A Single Solution—The Snap-on Battery Charger Plus is a single solution for practically any battery type. It's mobile, durable and powerful. With one of these in your shop, you'll never have to worry if you have the right charger for a battery again.

Versatile—Automatically charges 6v, 12v and 24v batteries with 4 amp, 15 amp and 60 amp rates. Unique settings for standard, deep cycle, gel and AGM batteries.

Convenient—Features auto, manual, engine start and flash reprogram* modes. Has GFCI outlets to power lights and accessories and a convenient storage compartment for hand tools. No shop should go without this must-have battery essential.

- Higher working height relieves back strain
- Flash reprogram mode (up to 60 amp)
- 300 amp engine starting power

*Up to 60 amps maximum during flash mode.
