Rain checks may be available, but product may not be available for immediate delivery. Offer cannot be combined with another trade-in or discount.

THE TOOLS ARE PINK THE COLOR IS ELECTRIC

Talk about a bright idea.

Three of your go-to Snap-on® tools now come in a Hi-Visibility color.

Sure, they'll make you stand out, but it's not all for show. A color this bright makes your tools easier and faster to find in low-light settings.

For added safety, they make your hands more visible—to you and others—when you're in the middle of a project. And they'll make other technicians less likely to grab your tools by mistake.

Just the kind of innovative advantages you get when you color outside the lines.

1/2" Drive Impact Wrench

- 810 ft-lb maximum torque; 9,800 RPM free speed; 1,270 blows per minute
- One-piece machined magnesium housing is extremely durable, lightweight and provides alignment of internal parts to reduce vibration
- Eight-vane rotor provides fast motor startup and greater performance with more torque
- Patented cushion grip helps insulate user's hand from cold and reduces vibration to reduce user fatigue
- Patented tip valve trigger provides increased air flow and greater tool control
- Twin-hammer impact mechanism is durable and hard hitting to quickly remove stubborn fasteners
- Sealed-in oil-bath lubrication keeps impact mechanism lubricated for less wear
- Slim-style nose is ideal for working in restricted access areas
- Anvil stops with release of the trigger to prevent throwing of fasteners

MG725HV **\$539.95**

EUMATIC. TRIC.

3/8" Drive Impact Wrench

- 325 ft-lb maximum torque; 10,700 RPM free speed; 1,400 blows per minute
- One-piece magnesium housing for precise internal component alignment to reduce vibration
- Twin hammer impact mechanism delivers hard-hitting blows with fewer moving parts to quickly remove stubborn fasteners
- Continuous oil bath lubrication prolongs tool life by reducing premature component wear
- Eight-vane motor delivers maximum speed and torque
- Lightweight, balanced design distributes weight evenly to reduce user fatigue
- One-handed forward/reverse lever for user convenience
- Cushion grip handle insulates user's hand from cold and absorbs vibration
- Comfort cushion trigger button allows the user to work comfortably with less finger stress

MG325HV

\$469.95

Super Duty Hammer

- Dual elastomer cushions absorb shock and vibration to reduce user fatigue
- Phenolic (Kevlar® reinforced) flutter disc provides long life
- Direct multi-port front exhaust keeps air and debris away from user
- High grade steel barrel provides greater strength
- Variable speed soft-touch trigger provides featherability for greater control
- Four-position built-in air regulator varies power for different applications
- Air line screen helps prevent foreign particles from clogging trigger mechanism
- Hardened steel piston delivers harder blows for maximum impact
- Includes PH200D Quick Change Chuck Retainer

PH3050BHV

When Jeff Bussanmas gets a call, he has to head out at a moment's notice. Keeping his tow trucks in optimal running condition is essential to the success of his towing and recovery business.

Jeff discovered the Portable Smart Smoke[®] Machine at a Snap-on[®] diagnostics seminar, with his Franchisee, Mark Stuchel. Like his colleagues, he had been using visual inspection and trial-and-error to diagnose leaks. But then he learned how to use the Smart Smoke[®] Machine—and how it could help grow his business.

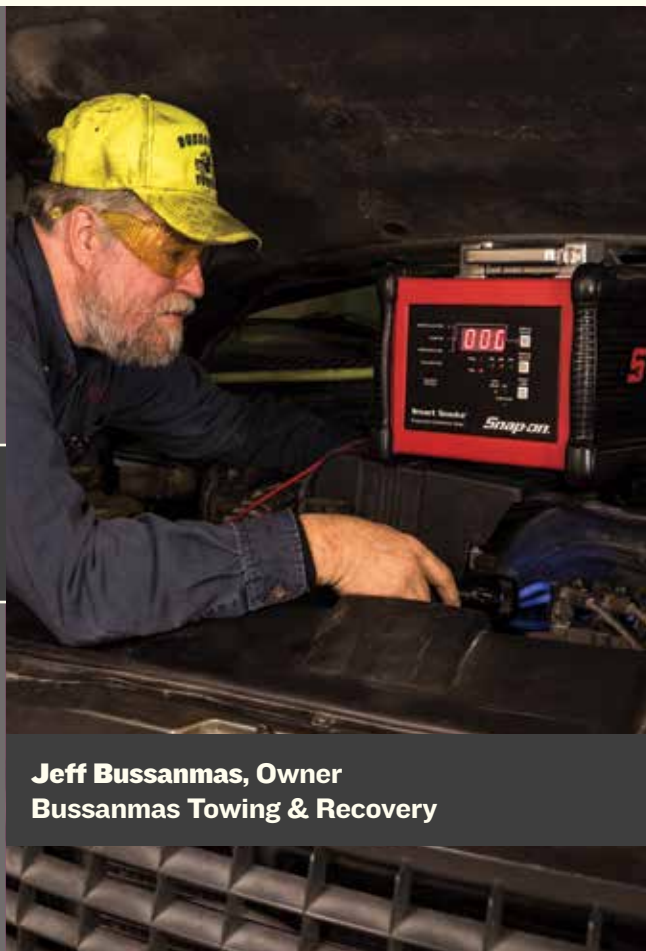

"It's a great diagnostic time saver," he says. "It's compact, it's mobile, and I love the remote feature. That's a great time saver when you're working alone. I'd definitely say it's paid for itself already."

"When I saw how versatile the Smart Smoke could be, I was sold. This machine does a lot more than most people think. There are so many ways it can help with your diagnostic work."

Jeff even proved a parts supplier wrong when he found a leak in a valve body that the supplier was sure couldn't be the source.

"I'm still figuring out new ways to use this thing," Jeff says. "I use it on air lines, brake lines and even shifter control lines. It does way more than I ever thought it would."

Ask your Franchisee for a demo or to schedule a seminar. You'll be surprised how big a difference this compact, versatile machine will make in your business.

**Jeff Bussanmas, Owner
Bussanmas Towing & Recovery**

INDUSTRY LEADING PORTABLE EVAP/SMOKE MACHINE.

Portable Smart Smoke[®] Machine

- **PORTABILITY**—Take it under and around vehicle with optional 14.4V Ni-Cad or 18V Li-Ion battery and operate using cordless remote control or connect to vehicle 12V battery
- **NECESSITY**—Eight of the top emission DTC codes can be diagnosed with Smart Smoke[®] technology
- **COMPUTERIZED**—Digital readout displays leak sizes down to 0.001-LPM and Pressure/vacuum in H2O
- **SMART**—Self calibrates for .010, .020, .040 and automatically performs EVAP pass/fail test
- **FIND LEAKS**—The evaporative emissions diagnostic smoke machine delivers EVAP testing and general purpose applications
- One touch EVAP testing with automatic pass or fail
- Low flow mode makes it easier to find leaks
- Vacuum port adaptor to diagnose Chrysler[®] ESIM and NVLD systems
- Conveniently functions with OEM specified nitrogen, shop air or optional portable CO2 (ships empty) bottle
- Patented UltraTraceUV[®] dye solution pinpoints leaks
